EDITORIAL INTRODUCTION

This bibliography provides information on books, articles, and other materials dealing with public and private international law in Asia, broadly defined. Only English language publications are listed. In the preparation of this bibliography, good use has been made of the list of acquisitions of the Peace Palace Library in The Hague, The Netherlands, as well as book reviews in journals of international law, Asian studies, and international affairs. Most, if not all, of the materials can be listed under two or more categories, but in order to save space, each item has been placed under one category.

The bibliography is limited to new materials published in 2011, or in some cases, previously published materials that have new editions in 2011. In addition, some materials that are listed as published in 2010, but were made available in 2011, are included here as well. Such entries are marked with an asterisk (*).
